

My name is Connor Rambo, and I am working towards my Eagle rank in Boy Scouts.

One of the Boy Scout requirements to achieve this prestigious award is to design something that will help the community, and then direct my Scout troop to build the project. My project is to build a pavilion on the preexisting concrete pad that has been installed in Klumpp Park in Windsor. When I am done, this structure will benefit many people that utilize the park on a daily basis. It will also help people on opening day of little league baseball and during the regular season. Additionally, classes can use it during school field trips.

I have already taken the measurements, had plans drawn up, and have a quote for the materials. I also presented this to the village board and the Eagle board of review, and they approved of it with no problems. I'll be completing this by the end of February.

Many people have asked what they could do to help, and the scouts in my troop are ready to help build this and see me receive the highest award in scouting.

My next step is to obtain enough funds to acquire the building materials to build this project. I am asking many people around town and some from out of town to help with these donations. Any amount would be greatly appreciated, and checks should be made out to my parents, Ron and/or Sue Rambo. The donation of materials will also be greatly appreciated. Contact me or go to www.allaboutwindsor.com for the list of materials still needed.

The supplies list:

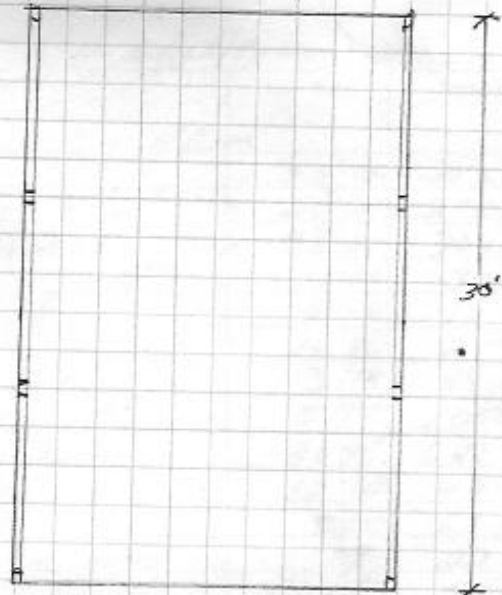

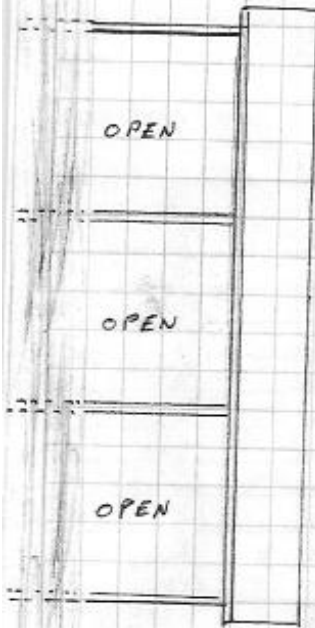

8	6"X6"X12' pressure treated
10	2"X10"X20' kiln dried
16	20' 4/12 common truss
30	hurricane ties
2	2"X6"X20' kiln dried
2	2"X6"X20' kiln dried
14	2"X4"X10' purling
21	2X4X16 kiln dried
22	pieces of painted steel 12'
4	pieces of painted steel ridge caps 10'6"
13	pieces of 2" steel drip edge
250	1-1/2" woodgrip screws
500	1" woodgrip screws
2	pcs painted steel 8'
